Project "Including children affected by migration"

Il Progetto **"I.C.A.M. - Including Children Affected by Migration (CAM)"**, finanziato dal programma Erasmus + Key Action 3 - Initiatives for policy innovation - Social inclusion through education, training and youth - EACEA 05/2016 LOT 1 - è destinato a promuovere l'inclusione e migliorare la capacità di apprendimento dei bambini e degli adolescenti immigrati, nonché sviluppare un clima di convivenza nelle scuole e nelle famiglie.

KICK-OFF MEETING

Il kick-off meeting del progetto Erasmus + " ICAM - Including Children Affected by Migration " si è tenuto presso la sede di "CECE" in Madrid nei giorni 26 e 27 del mese di gennaio 2017.

L'incontro ha coinvolto alcuni rappresentanti delle organizzazioni europee: tre membri del CONSORZIO ICARO (IT), quattro membri del Centro Northampton NCfLB per l'apprendimento comportamento (UK), quattro membri del ISJP- Ispettorato scolastico romeno regionale sotto l'autorità del Ministero della Pubblica Istruzione e due membri del CECE - la Confederazione spagnola dei Centri educativi e di formazione (Internazionale Dipartimento Relazioni).

Il kick-off meeting è stata organizzato in due diverse giornate.

Nel corso della prima giornata si è fatto il punto sui progressi dei CAM in ciascun paese coinvolto, analizzando le interviste preliminari effettuate nelle scuole individuate; si è descritto, inoltre, il manuale di CAM, individuando finalità e fasi progettuali. Si è, infine, discusso sulla programmazione dei contenuti e sulle modalità di monitoraggio, valutazione e disseminazione del progetto ICAM.

Argomento principale della seconda giornata è stata l'esposizione da parte del Consorzio Icaro, coordinatore del progetto, del piano di comunicazione e pubblicità previsto da ICAM, nonché la descrizione del design e del management del sito web.

In ultimo, il team NCfLB ha dato disposizioni in merito alla formazione dei facilitatori nazionali da realizzarsi in Oxford UK.

Project "Including children affected by migration"

The **I.C.A.M. (Including Children Affected by Migration) Project** is funded by the Erasmus + Key Action 3 program - Initiatives for policy innovation - Social inclusion through education, training and youth - EACEA 05/2016 LOT 1.

It is aimed at promoting inclusion and improving the learning skills of immigrant children and teenagers as well as developing a climate of convivencia in schools and families.

KICK-OFF MEETING

The kick-off meeting of the project Erasmus + "ICAM - Including Children Affected by Migration" was held at the offices of "CECE" in Madrid on 26th - 27th January 2017.

The project, funded by the European Commission and coordinated by Consorzio ICARO, a non-profit Consortium of Social Cooperatives, intends to increase the inclusion and enhance the learning skills of immigrant children in schools in the four European partner countries. This will be achieved by improving the climate of convivencia in schools, increasing awareness of immigrant children's rights and providing additional support for their social and emotional learning (SEL) and their general wellbeing.

The meeting involved some representatives of European organizations: three members of Consorzio ICARO (IT), four members of NCfLB - Northampton Center for Learning Behaviour (UK), four members of Romanian ISJP - Romanian Regional School Inspectorate under the authority of the Ministry of Education, two members of CECE - Spanish Confederation of Educational and Training Centres (International Relations Department) and one member of MEDIN EUROPE.

The kick-off meeting lasted two days.

On day one (Thursday, January 26th 2017) each partner highlighted the progress of CAM in their own countries. All partners presented the results of preliminary interviews in schools, describing the type of support they most needed.

Then, the partners discussed the program content as well as project training and methodologies to support and work with schools to ensure benefits to CAM and their parents.

In the last phase of the meeting, the partners discussed types of project's planning and the dissemination of the achieved results, by analysing how to work together in order to spread the ICAM program in parallel with AAB (that is, the previous project carried out by the four partners).
